## A Letter from our President

Hello All:

Time flies, doesn't it? We're almost to February already. Some of us who are getting on up in years, so to speak, have noticed that time slips by faster and faster the older we get. I was born the same year of the Mustang, might be fate, huh? Anyway, do the math on how old the Mustang is and you'll never forget my age. My only wish is that somebody could restore me as well as they restore a 1965. Maybe Chip Foose can design a new body for me on a future episode of *Overhauled*'.

A couple of weeks ago, several of us went down to the World of Wheels Car Show at the Chattanooga Trade Center. For those of you who have never been, this is usually the upper crust of the car show circuit. Not to say there aren't any street cars there, because there are. We saw several cars and trucks belonging to people we run into a lot in the local scene. What was missing was Thunder Valley Mustang Club. This makes two years in a row that we have not had any club cars showing, and I'd like that to change. Our presence there would be great exposure and possibly bring in some new membership. The club has invested quite a bit of money on display items and it's a shame to let them sit in a garage and not be used. We will discuss this in the coming months, so if you are interested in entering, feel free to speak up.

Our resident Web Master, Phil Rumble, has come upon another way for the club to communicate as well as others to communicate with us. He is working to add a forum to the website in which you can post comments, ideas on almost any discussion topic under the sun. It will have a place to post items for sale, cars for sale, and any other thing you can think of to sell. It's still in the "under construction" mode right now, so look for that in the near future. Phil, you are the Man!!

We are looking to do a fundraiser in the next couple of months to help out a long-time member with some medical bills. So far, we've talked about doing a Poker Run in the area. More information to follow as we talk more in the next few meetings.
